1868.

A.D. 1867, 6th SEPTEMBER. N° 2524.

Relieving Affections of the Lungs or Chest.

(This Invention received Provisional Protection only.)

PROVISIONAL SPECIFICATION left by Saul Cassan at the Office of the Commissioners of Patents, with his Petition, on the 6th September 1867.

I, SAUL CASSAN, of No. 11, Grafton Street, Tottenham Court Road, in the
5 Parish of Saint Pancras, in the County of Middlesex, Chemist, do hereby declare the nature of the said Invention for “A NEW OR IMPROVED PREPARATION OR MATERIAL TO BE USED FOR THE PURPOSE OF AFFORDING INSTANT RELIEF TO PERSONS AFFLICTED WITH ASTHMA, OR SUBJECT TO ANY OTHER AFFECTIONS OF THE LUNGS OR CHEST,” to be as follows, that is to say :—

10 My new Invention or system is composed of the following materials, and to be applied as under mentioned :—I purchase and make use of ordinary filtered paper in sheets or strips, which paper is then prepared by myself by simply dipping such paper (but merely sufficiently so as to damp the same) into a certain chymical preparation or mixture of my own Invention, which is
15 composed as under written and expressed.

In order to prepare say five hundred sheets of this filtered paper I make use of and employ one-half gallon of pure water, one pound (avoirdupoise) of saltpetre, half a pound of alum, and one ounce of essence of bergamotte, and afterwards I hang up such prepared papers or expose same in the air till
20 dried, when they will be fit for immediate use by the patient.

The mode of application or user is by lighting and burning half a sheet of such prepared paper, and inhaling the smoke arising therefrom into the mouth and throat of the patient.
